

Increase profits with pride...

**Assured** energy saving in Lighting...  
...without any investment.

**BEE approved Energy Service Company (ESCO)**

Teknocrat's Control Systems (I) Pvt. Ltd is a BEE approved ESCO, offering end to end Energy conservation solutions for various industrial applications. Based on 25 years of industrial experience & able technology associates like PHILIPS, Teknocrat's team has developed an integrated solution to save energy in lighting application.

The technology includes :

- Day light harvesting
- LED lighting
- Voltage optimisation
- Automated switching
- Dimming based on ambient light level
- GPRS based remote control

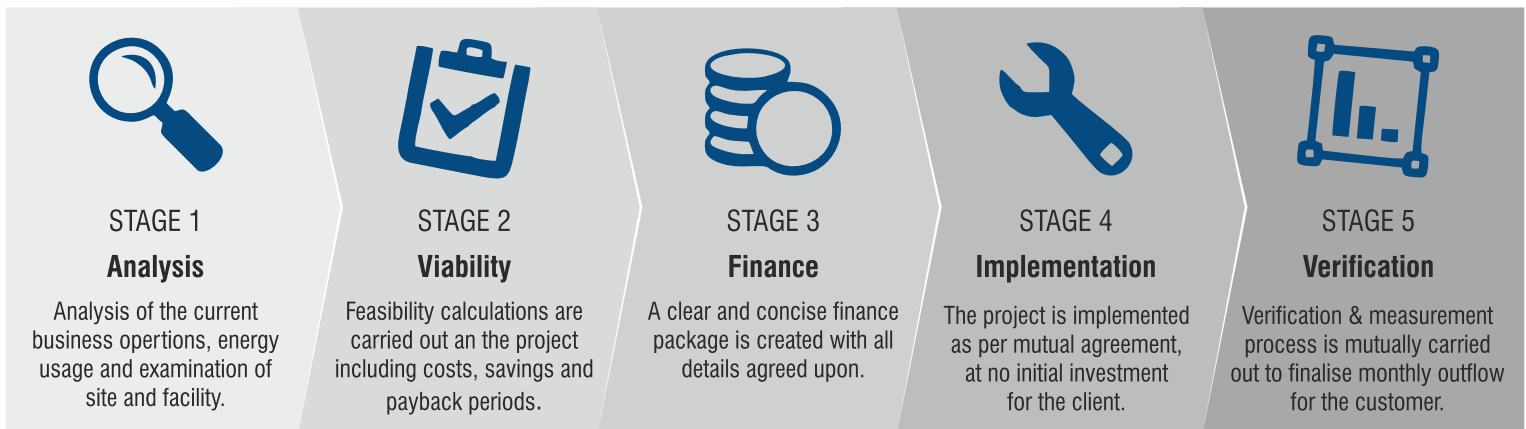

**Our Technology Associates...**

**Concept of ESCO :**

With the ESCO model, cost of the project is linked with the energy saving performance. This methodology assures the customer about the zero risk towards ENCON initiatives.

The process goes as follows...
